Great beginning art book for kids!

By Amazon Customer

This spiral bound books gives great foundational lessons for markers, colored pencils and paint. My six year old, who loves art, really enjoys this book. Most of the assignments are done right in the book, so at the end of it, the child will have a great art portfolio all in one place. I'm buying another one for my five year old as well. I absolutely recommend it!

By BerryDirl

I love this book and it's practicality but I think with the way my children learn they simply just couldn't get into it. That is not the authors fault though. This book is clearly laid out and provides a great foundation. I personally found the book very helpful and the activities age appropriate and I think it just has to do with my kids learning style.

Two Stars

By Karen S.

Awkward and unprofessional.
