Gr 3-7—An absorbing story based on the shark attacks in New Jersey in 1916. Chet Roscoe, 10, moves in with his uncle while his father looks for work in California. He works in his uncle's diner and meets some local boys with whom he becomes friends. A story hits the papers about a shark attack about 10 miles away and their little town dismisses it as a fake, but a local fisherman begs to differ. The boys play a series of pranks on one another, but when Chet comes face to face with the shark in the river, the friends refuse to believe him, until they see it themselves. Black-and-white illustrations that resemble old photographs enhance the events of the story. Tarshis incorporates information about the real attacks and fictionalizes it, then follows the story with facts about the attacks and sharks. This is a gripping story that will hold the interest of reluctant readers.—Delia Carruthers, Roxbury Public Library, Succasunna, NJ. (c) Copyright 2010. There couldn't be a shark in the creek. That was crazy.

Chet tried to laugh, but T.J. was still standing there with that terrified look on his face. And now Dewey was rushing through the water towards the grass.

"Get out of the water!" he yelled.

Because that black triangle was coming right at them. Chet swam as fast as he could, but T.J. just stood there, frozen.

"T.J.!" Chet shouted. "Hurry!"

But it was too late.

The shark was heading right for T.J.

T.J. screamed.

There was a huge splash.

And then he was gone.

All my I SURVIVED books look worn, which is a good thing!

By Lindsey

I am a 4th grade teacher and I cannot keep the I Survived books in my classroom library neat. The boys read them and constantly fight over them. The Shark Attacks of 1916 was no different- it already looks worn. I love when I find books that students actually read, and am thrilled that the boys found a series they love sooo much. I also like how they teach history, seem to have some great character lessons, and are high interest! I would buy any book from this series because the book will actually be read and enjoyed.

This book got my 9yr old son to read!!

By kcrobie

We have struggled getting my 9yr old son to read over the past couple of years. He just wasn't interested and it has been a struggle. He stumbled accross the I survived series and he doesn't want to put the book down. I think he finds the story exciting, and relates to the characters. He loves talking about it after he's done readding. This is a mother's dream! I only wish there were more books in the series!

Great book!

By Janey

I bought this book through Amazon when I saw an elementary boy reading it. I really like the book! It's fast and easy to read, and based on (and includes) real happenings. There are two more books in the series, too, which I am also getting: "I survived the sinking of the Titanic," and "I survived Hurricane Katrina."

In this book Chet is living with his uncle in a new town, and going to a new school. He feels alone and unloved. He starts to feel accepted by a group of boys until they play a prank on him. That really hurts, but

his uncle tells him that that is the way of boys: They play a prank on you, so now you play one back on them to show you're ready to be friends! Chet does, but it backfires; they can't handle it and stop playing with him.

Frustrated, Chet goes to their swimming hole to clean it up. Then he sees (and is almost grabbed) by a shark. However, no one believes him when he goes running into town--except one old captain. The formerly friendly boys joke about it, even "tempting" the shark--which they don't believe is real--by jumping in the creek. But...then guess who comes along, and guess who rescues the boys!

The pictures in this book are absolutely well-drawn as well.
