14 Colors

By Amazon Customer

This book teaches you how to use 14 basic colors: red, purple, blue, green, yellow, orange, brown, black, pink, flesh, light blue, light green, grey, gold.

There is a 2 page spread for each of the first 12 colors; one page is the "feelings" of the color with some sketches colored in with the color; the second page is some uncolored sketches that would benefit by being colored in with the color.

Then there are 12 color "messages": cute, fun, active, tasty, cool, strong, mature, warm, cold, happy, flashy, gentle that are created by combining the above 14 colors.

This is an excellent book to be given as a gift along with 14 quality pencils, pens, paints, or whatever media the gift-giver chooses. This book can stand alone without the other books in the series, but it does finish off the series nicely.

I strongly recommend the entire series if possible. The books are small and fit inside a medium sized purse. The difficulty level is about age 8-12, but the books are not inappropriate for adults.

The cutest, the most informative & the most helpful doodling books

By Amazon Customer

These books are beautiful works of art in themselves and you won't regret buying them :) I have recently acquired the whim to learn to doodle and hence bought three of Sachiko's books to help me learn doodling. Of all the drawing books I have bought, these are by far the cutest, the most informative & the most helpful. Sachiko's style is easy to follow and learn, and I keep referring to her books when I'm stuck or in need of ideas. In this book, she has explained the use & effect of various colors to achieve different kinds of moods in a drawing. Also, she inspires you to be brave in choosing your colors and try out color combinations that you never thought would work.

... someone who has never been able to pick a favorite color, this book just gets me

By LT

As someone who has never been able to pick a favorite color, this book just gets me! I immediately fell in love with Umoto's sweet and simple style as well as the actual content. This book is a must as it will talk you through some concepts such as colors' feelings and how to create palettes to evoke certain emotions. I've become a fan of Umoto overnight and have ordered the rest of her Illustration School books. I can't wait to dive in! (Also, this book is super useful for teaching coloring and basic color theory.)
