Review

"In his earlier work Laing guided the reader to understanding. In *Knots* he compels him to experience.... To grasp this dense and difficult book one must be willing to follow Laing in his spirals of descent. If *Knots* is to yield, one must yield to the knots."

-- James S. Gordon, The New York Times Book Review

"Dr. Laing's gentle determination to unpeel the bottom motive, the most inward secret of the heart, produces a curious combination of intensity and compassion....The heartbreaking ironies...belong to an artist rather than a psychiatrist...."

"The voices of known demons rise from these pages: demons of guilt, demons of self-justification; demons of perverse will, demons of self-destruction. All the enemies of the human spirit are arrayed here as vividly, as warningly as in a medieval morality play. Those who believe that to unmask the enemy is a first step toward confounding him will find this a practical as well as a moral book."

-- Melvin Maddocks, The Christian Science Monitor

A unique book. It is meant to make you ...

A unique book. It is meant to make you think as you read, and illustrate how many of our relationships are built on assumptions and attitudes which are not necessary, or even rational. Read a page, and stop to think which relationship you know which follows the pattern you just read.

Five Stars

By Happy Poet

Makes "The Politics of Experience" feel like undergraduate school while "knots" is post doc material.

The Emperor's New Clothes

By calmly

I've found no value in this book, despite holding Laing in high esteem for his compassion toward the mentally ill and his provocative challenges to the status quo. I'm thankful that some of his other books have been of so much value to me; this one I don't get.

"Knots" consists of an opening page which suggests that the patterns that follow would correlate significantly with actual problems in human relationships, followed by the patterns themselves. However, there is no example presented of any specific real incident involving any of these "knots". There is no suggestion as to how one might avoid such "knots" if one found oneself in them. There is no reference to other works of Laing or anyone else which might provide further information about such "knots". The patterns seem more wordplay than description to me. I don't see any effective connection between these patterns and real issues I've encountered: I haven't met any Jack or Jill's nor am I aware of having been one. My little brain may spare me from constructing such complicated thought patterns; perhaps I manage to become confused on my own with much simpler ways of thinking.

I'd suggest instead reading Gregory Bateson (if you're interested in how one can get stuck by what's said in a relationship), or something else by Laing if Laing's your interest, or Peter Handke's staggering play "Kaspar" if you like to find real meaning within apparent words of nonsense, or Dr. Seuss if you like intelligent playfulness with words.
