Magna Wave has been working with PEMF Therapy equipment for 10 years, we are family owned and operated. All of our products are made in is family owned and operated.

We understand that painful conditions caused by accidents, arthritis, or disease can be very frustrating. Obtaining relief from these conditions with prescriptions and over-the-counter painkillers is also frustrating because of the potential effects on the body and possible side effects.

There is a safe non-invasive alternative that is natural, does not require drugs, has no side effects or risks, and it works very fast and very well. This alternative to conventional medicine is Magna Wave PEMF (Pulsed Electro-Magnetic Field) therapy. Magna Wave PEMF works by improving cellular function and health at the molecular level. The process enhances the body's ability to heal itself and relieve pain quickly and naturally.

Don't Waste Your Time!

By Jeffrey H. Mindich

Not sure who wrote all the favorable reviews (friends and family of the author?), but this is one extended promotional piece for a specific unit, which as it says on the cover, is called Magna Wave. Doesn't even scratch the surface of what PEMF is, but that it isn't meant to – it's purpose is to sell you a Magna Wave unit. As whether the unit works the way the book claims it does, well, your guess is as good as mine.

Lacks any how to's

By K. Johnson

A lot of background story telling with little scientific support (there's plenty for it) and practically no applicable information. Would have been so much better if Pat shared his best techniques on using the Magnawave instead of writing out an infomercial for it. -and yes, I know he does clinics, but hey, he wrote a book on PEMF, so shouldn't there be some how to's in it?

... you are looking for PEMF therapy this gives a good introduction to the subject

By Naturopath

If you are looking for PEMF therapy this gives a good introduction to the subject. Although it may somehow

sound like advertisement of their product, you can make your own research as I did and buy the one you think is right for your practice. Definitely the high power versions are the way to go when it comes to PEMF therapy although lower powered ones are more for home use.

There are not many choices of PEMF devices out there although I was surprised to find lot more than when I first started my research on this. So if you had tried physical therapy for months and months with little or no results, give this modality of non-invasive therapy a try. The best part, you will be spending not more than 10 minutes in your practitioner's office. By the way, not that it means much to me, Dr. Oz is on this bandwagon as well.
