Loved it. Very informative!

By Alex

I loved this kindle book.

I'm always looking for new ways to make money especially online. So I'm already familiar with topic, but I have to say this book showed me a lot I didn't know about before. There's so many bad money making apps out there and it's sometimes hard to find ones that are actually worth using. This book presents a repertoire of applications and ways that actually make you earn money and are worth your time! The book is relatively short but was very informative. I was able to download a few apps and start making money within an hour, so I give it a 5 star rating and would recommend it.
