Spanish Made Simple Works!!!

By Donald Potter

Spanish Made Simple is the absolutely best book for learning to speak and read contemporary Spanish. The book is written in the form of a interesting novel with the vocabulary and grammar seeded into the captivating narrative. Beginning with absolutely no knowledge of Spanish, I was able to converse on everyday topics within a few months. After two years of self-study, I tested out of 8 hours Spanish at the local community college. If you want to learn Spanish, this is the book to get. It worked for me. It will work for you.

A great book for beginners

By A Customer

The format lends itself for easy learning of vocabulary. Grammar sections are clear but not too technical for an average learner. The ongoing story is interesting and informative. I use the book extensively for review, although I have learned enough that my level of knowledge is beyond the level of the book. I used it to learn the language on my own, but it would be an excellent text for classroom work. There are ample exercises and to do the exercises does much to learn and retain the language.

The price was perfect.

By Amazon Customer

This was exactly what I wanted and needed for class. The price was perfect.
