Not bad, if you want samples.

By MeganE

This book seemed like a good deal with 72 songs, but most of the songs are sample length and less than a page long. I have some of the same songs already from other Disney music books which are 2 pages long instead. Unless you just want snippets of these songs I recommend finding the songs you are looking for in other books with less songs total to ensure you get a full length piece.

Excellent Summer Book

By Myra Binnicker

I picked this up for my daughter so she wouldn't get rusty over the summer. If anything, it has really helped her out. She has only been in band for one year, but there was quite a variety of skill levels here. She started out with what she thought she could handle, but there were so many songs that she knew and wanted to learn, that she started working hard to get to the next level so she could play them.

The variety of songs here is great. I was thinking that with 72 songs, there would be a couple of popular ones, and then a lot that I had never heard of. That was not the case though. The book was full of songs that

we recognized. It has been nice hearing her practice, and knowing the song well enough to find ourselves singing along.

Golden

By Jim

The book might as well been made out of solid gold, my daughter absolutely loves playing EVERY song from the book, and it has helped her take her flute playing to a level I didn't think possible in her first year of playing. Highly recommended for the motivated beginner! or to MOTIVATE a beginner!
