Slow down, enjoy the moment.

By Belinda Ellsworth

The book I read *The Dash: Making a Difference with Your Life* by Linda Ellis and Mac Anderson is a short one. In fact, it's filled with a lot of pictures and is based on a brief poem entitled "The Dash." It's the result of a project, really a labor of love, in which Anderson, the man behind the Successories brand, took a poem written by Ellis, and expanded on it in a unique way. You know Anderson's company from those beautiful inspirational one-word posters that exhort you to recognize the value of Discipline or Dedication or Attitude. They're so well-known you can probably picture one of his posters right now. Anderson turned his trademark approach to Ellis's poem to create a book that's very much like a collection of those posters in the first half and an exploration of what the words mean in the second half. I recently received this book as a gift and I'm so glad I did. Though the book isn't widely available any longer, you may be able to find it at independent bookstores, or second-hand on the Internet. I reviewed it anyway, because the message truly touched me.

Even if you cannot get your hands on the book, I urge you to use Google to get the poem "The Dash."

The title of the poem refers to the dash in expression of the length of person's life, as in history books, in obituaries, or eulogies. And, the poem itself is written as if it's a eulogy that encourages those in attendance to think about what characterized the dash in a deceased person's life, for instance 1940 - 2010. Though the numbers we focus on are the birth date and the date of death, it's all that's represented by that little dash that is the real story of that person.

The question this book ends up asking, as does the poem, is: What did you do with the dash in your life? The book expands in the second half to share stories related to the stanzas of the poem. Life lessons about living in the dash. One of the very poignant examples is a story called "To A Child...Love is Spelled T.I.M.E." I found that story of the contrast between a father's recollections of certain days of his life and his son's. It's a compelling story that I took as such a strong reminder of keeping our focus on what's truly important in our lives.

Though you may not be able to purchase a copy of the book, with its inspiring photos and expansion of the poem, I urge you to seek out the story and the poem. I know that I will be keeping them handy as a reminder to myself as I rush along, keeping up with the demands of a modern life. If it reminds me even occasionally to slow down, enjoy the moment, and focus my attention on how I'm living my dash, it will be a wonderful addition.
