## Review

One of Ben Law's remarkable gifts, besides being arguably Britain's greatest living woodsman, is a knack for inspiring others. The Woodland Year is a month-by-month journey through Ben's woodland in the Sussex Weald, and a celebration of every aspect of sustainable woodland management. In words that are often lyrical but always ungilded, he describes a way of life that is both economically and ecologically viable. As such, it holds some of the fundamental keys to how we can achieve a more sustainable, lower carbon society. Ben is a true pioneer and is quite simply creating a woodland renaissance in Britain. Read this, and you will surely want to be part of it. From the Foreword by Hugh Fearnley-Whittingstall, TV chef, author and campaigner

Great coffee table book

By Sus

Lovely pictures and glimpse of woodland lore. I was after a more in depth how-to on bush crafts/living, especially coppicing, so a bit disappointing in that respect.

Not the reference book I was hoping to keep and have gifted it along.
