Serves its purpose beautifully

By Nancy Rector

I have loved all their atlas's. The book had all the basic info you look up all the time and its in one spot without searching the web and I love the detailed city maps. People seem to complain that its not something it was never intended to be. Sure you can get a lot of the into all over the web. I prefer to pull out my atlas's to quickly and concisely find what I need. The travel routes alone were worth it to me! Large hardbound color book fro \$13? Its awesome!

Worth every penny

By Doing what I can

I love the atlas, its a great tool. When it came it was very well made. If you are thinking about purchasing this do it, its a great product. Everyone else is just upset it took so long to ship.

With digging you would be able to find the information on the internet but this is made for you, and its on nice paper, and nicely bound. The book even smelled fresh when it came. I mean I opened it and it woof.. freshly processed paper. My teenage brother loves it too, maybe I'll get him one.5 of 6 people found the following review helpful.
